

SARASOTA-BASED · SERVING THE UNITED STATES

MINERAL TITLE RESEARCH, TRACED TO THE RECORDED INSTRUMENT.

Chain-of-title research, every finding traced to a recorded instrument, for energy operators, landmen, attorneys, and rights-owners across more than thirty states — delivered with documented methodology and the responsiveness of a focused team.

◇ Principal-led, principal-reviewed

◇ Scoped to your project

◇ Four-eyes review on every report

BIC REA LLC is not a law firm and does not render legal advice, legal opinions, or title insurance. Reports are research deliverables for use by the client and its licensed counsel.

OUR FOCUS

MINERAL TITLE IS OUR FLAGSHIP.

We lead with mineral title research because doing it right is a full-time discipline. Each engagement leads to a specialist who actually does the work — not a queue, not a back office.

FLAGSHIP · FOR ENERGY PROFESSIONALS

MINERAL TITLE RESEARCH & REPORTS

Comprehensive title research, runsheets, and chain-of-title documentation for oil & gas operators, landmen, attorneys, and royalty owners. Sovereignty-to-current or defined look-back — every finding traced to a recorded instrument.

Delivery date fixed in the engagement letter

Priced to your project

RESEARCH YOUR COUNSEL CAN BUILD AN OPINION ON.

SCOPE · STATED PLAINLY

WHAT A BIC REA REPORT IS — AND IS NOT

It is a documented analysis of the public record: chain of title, undivided interests, encumbrances, and curative items as of the search date, every finding indexed to a recorded instrument.

It is not a legal opinion or title insurance. Drilling, division-order, and acquisition opinions are issued by independent licensed counsel — coordinated by us, built on our research.

WHY BIC REA

SPECIALIST WORK, NOT ASSEMBLY-LINE WORK.

The result is work your team and your counsel can rely on as the documented foundation — and a team that picks up the phone.

◇ SARASOTA-BASED, REACHING THIRTY-PLUS STATES

A Florida firm with a Florida ethic — direct work, direct accountability — serving energy and real-estate clients across the United States. Our principals have researched mineral records in thirty-plus states.

◇ PRINCIPAL-LED, PRINCIPAL-REVIEWED

When you hire BIC REA, a principal scopes the work, directs the research, and signs off on the report. Experienced landmen do the field work under that direction — never a back office in another time zone, never a junior running unfamiliar searches. The person on the phone is the person accountable for the file.

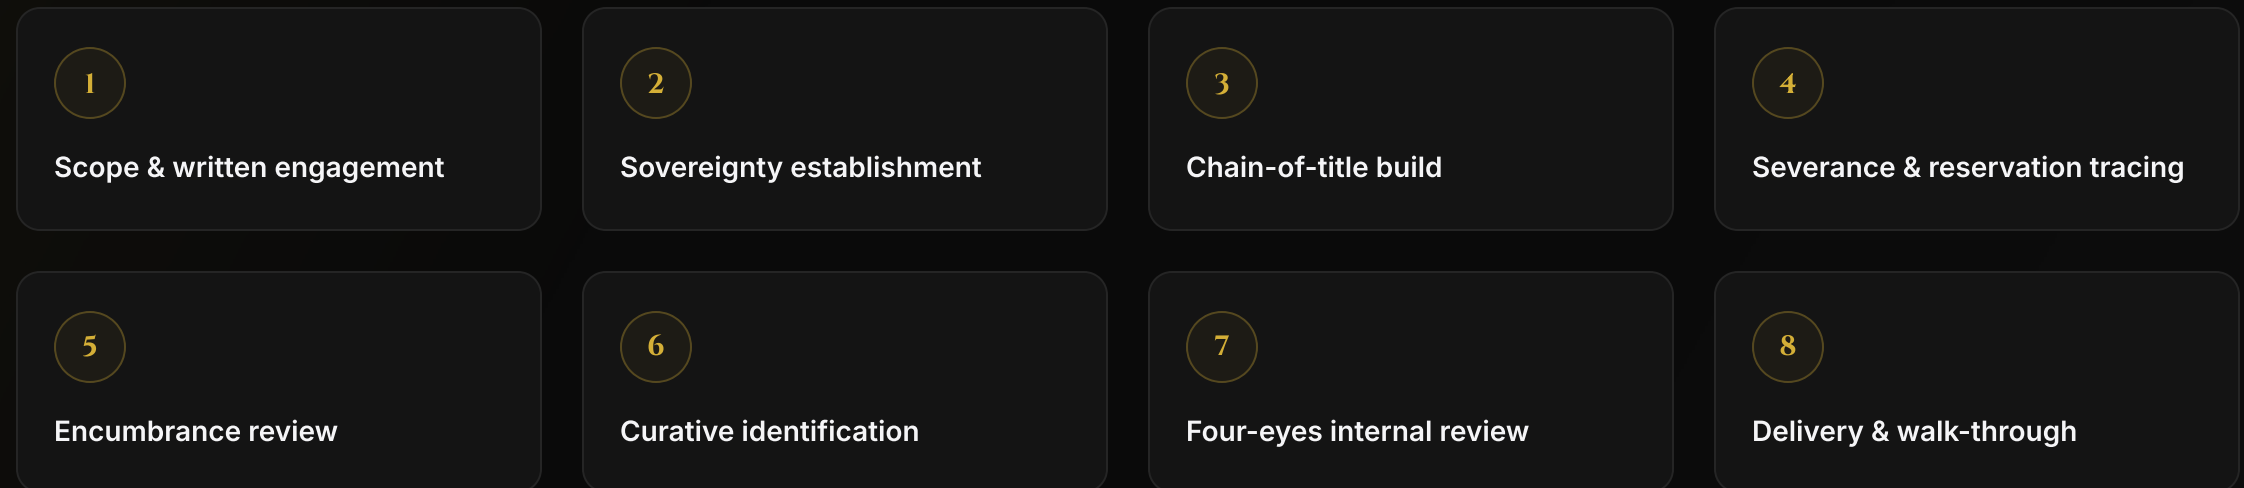

◇ PREDICTABLE TIMELINES, TAILORED PRICING

Each engagement carries a committed delivery date and a fee scoped to your project — customized to the work in front of us, not a one-size queue. Scope, fee, and delivery date in writing before work begins — and any change to scope handled in writing, not by surprise.

THE PROCESS

EIGHT STEPS FROM ENGAGEMENT TO DOCUMENTED REPORT.

Every finding in a BIC REA report ties back to a specific recorded instrument, examined in a documented way. Curative-heavy and multi-tract work add depth — the core method holds.

◇ Every report receives a four-eyes review. A second examiner independently re-traces each finding to its recorded instrument, the undivided-interest math reconciles, and each curative item is logged with its source. Standard on every report — rush or not.

THE DELIVERABLE

A REPORT BUILT TO BE READ, TRACED, AND TRUSTED.

The final deliverable is a structured PDF in which every finding can be traced back to the underlying recorded instrument — an auditable research document — the foundation your counsel builds an opinion on, not a substitute for one.

4

eyes on every report,
before it ships

30

days of post-delivery
Q&A, included

◇ **Executive summary**

Current record ownership as reflected in the instruments examined, and the findings that matter, up front.

◇ **Undivided-interest summary**

Fractions computed from the recorded language, by current owner of record.

◇ **Source-document index**

Each finding traceable to a specific recorded instrument.

◇ **Runsheets & chain table**

Every conveyance, instrument type, and recordation reference — formatted opinion-ready for your counsel.

◇ **Encumbrance & curative list**

Identified, sourced, and categorized for counsel's evaluation.

◇ **30-minute walk-through call**

Every report is delivered live — findings discussed, questions answered.

BIC REA LLC is not a law firm and does not render legal advice, legal opinions, or title insurance. Reports are research deliverables for use by the client and its licensed counsel.

WHO DOES THE WORK

EXPERIENCED LANDMEN ON THE FILE, UNDER PRINCIPAL DIRECTION.

Every engagement is led by the principals and staffed with experienced landmen under their direction. When a project needs more hands, we bring in vetted contract landmen — in most cases people we have worked with before — sized to the scope and held to the same review standard — and any title opinion is issued by independent licensed counsel, engaged directly by you. BIC REA does not render legal opinions.

◇ HOW WE STAFF

Principal-led · scaled to scope

Sandra Petkov assigns and directs the field research on every engagement. Courthouse work, runsheet preparation, and record-ownership tracing are carried out by experienced landmen working under her direction — our own, and vetted contract landmen brought in as the county count and timeline require. Named personnel and résumés are provided in proposals.

◇ HOW WE HOLD THE STANDARD

State standards · traceable sources · counsel for opinions

Every report is built to the title examination standards of the state it covers, and every finding is indexed to the recorded instrument behind it. Thirty days of follow-up are included. Where an engagement calls for a drilling, division-order, or acquisition opinion, we deliver our research in the form counsel needs to issue it, and can introduce you to independent licensed counsel if asked. Counsel is engaged directly by the client.

TRACK RECORD

TWO PRINCIPALS. ONE STANDARD. REAL WORK.

What you can expect from a BIC REA engagement. Substantiation available on request.

7–14

Days, typical single-tract report; multi-tract scoped individually

Reports four-eyes reviewed

CUSTOM

Scope & fee, quoted per project

“BIC REA’S TITLE WORK WAS CLEAN, DEFENSIBLE, AND TURNED FASTER THAN ANY OF THE REGIONAL FIRMS WE’D USED PREVIOUSLY. THEY TOLD US EXACTLY WHAT THEY FOUND, WHAT THEY COULDN’T FIND, AND WHY — WHICH IS WHAT YOU ACTUALLY WANT FROM A TITLE RESEARCHER.”

Energy company senior landman · multi-state acquisition project, 2024 — identity withheld at the client’s request; references available to qualified prospects on request.

PREPARED FOR PINSON

HOW WE WOULD RUN YOUR TITLE WORK.

You have already reviewed our Grant County sample report — this is how we would bring that same standard to your project. A provisional approach for [BASIN / STATES], based on what we know today. Scope, phasing, and the committed dates are finalized in the engagement letter once we have your tract list.

1

Mobilize & scope

Tract list reconciled, counties confirmed, examiners assigned. Written scope and per-phase dates issued within [N] business days of engagement.

2

Research in phases

Approximately [TRACT COUNT] tracts across [COUNTIES / STATES], worked in county batches with a four-eyes review at the close of each batch — so findings reach you as they are confirmed, not at the end.

3

Deliver & support

Opinion-ready runsheets and reports delivered by phase, walk-through on each, and coordination with your counsel on any opinions required. Thirty days of follow-up included.

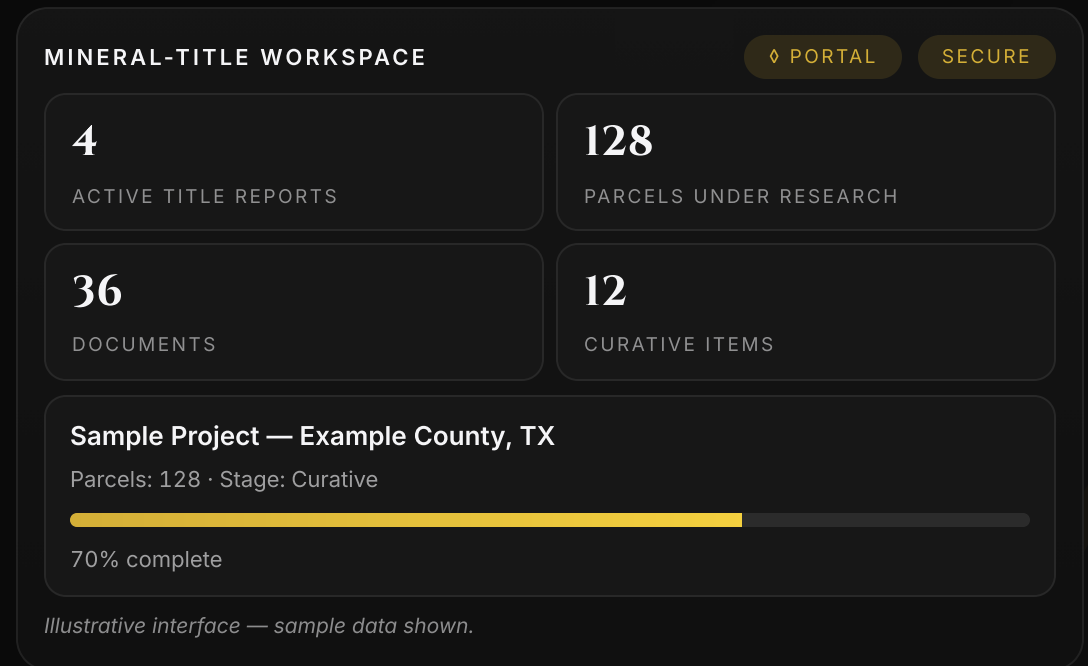

◇ Fee: scoped to the tract count and phasing above, quoted as a fixed amount per phase — no hourly surprises. Provisional estimate on request before the engagement letter.

ENGAGED-CLIENT PORTAL

YOUR PROJECT, VISIBLE AT EVERY STAGE.

Engaged clients receive secure portal access to track active research, monitor progress by stage, and retrieve every delivered document in one place — with MFA-protected sign-in.

- ◇ Active projects with live stage & progress tracking
- ◇ Secure document library — reports, runsheets, source files
- ◇ Encrypted, MFA-protected access

HAVE A PROJECT IN MIND?

PRINCIPALS ON YOUR PROJECT — FROM SCOPE TO DELIVERY.

Christian and Sandra are your team leads and stay close to the engagement from day one — specialists who put their names on every report, supported by the research team described on the previous page. Reach either directly for a straight answer and a specific quote.

◇ CHRISTIAN HICKEY

Chief Executive Officer and Co-Founder

Christian leads the firm and stays close to every engagement — setting the scope, the committed delivery date, and pricing built to your project, so you always know where the work stands and what comes next.
