

PREPARED FOR PINSON LAND SERVICES · [TOM — TITLE] · OCTOBER 2026

MINERAL TITLE RESEARCH FOR RENEWABLE SITES, TRACED TO THE RECORDED INSTRUMENT.

Severed-mineral, heirship, and curative research that your title managers can fold straight into Pinson deliverables — built to the recording conventions of the state it covers, every finding indexed to its recorded instrument. You have seen the Grant County report. This is how we would do that work for you, tract after tract.

◇ Principal-led, second-examiner reviewed

◇ Deployable to any U.S. state

◇ White-label or co-branded

BIC REA LLC is not a law firm and does not render legal advice, legal opinions, or title insurance. Reports are research deliverables for use by the client and its licensed counsel.

THE PROBLEM YOUR DEVELOPERS BRING YOU

A SEVERED MINERAL OWNER HAS RIGHTS TO THE SURFACE. A SOLAR ARRAY NEEDS ALL OF IT.

In most states a severed mineral owner may use as much of the surface as is reasonably necessary to reach the minerals. Texas's El Paso Court of Appeals has held the accommodation doctrine governs solar-versus-mineral disputes (*Lyle v. Midway Solar*, 618 S.W.3d 857, Tex. App.—El Paso 2020, pet. denied). Lenders require insurable title; policies except severed minerals in Schedule B, and the array endorsements (ALTA 35.3, ALTA 36.9) insure improvements, not mineral title — so underwriters want the severance search done first.

WHAT HAS TO BE FOUND

EVERY SEVERANCE, BY DEPTH AND BY PRODUCT

Patent reservations, mineral deeds, fractional heirs, unreleased mineral mortgages, dormant interests — traced from sovereignty to today, not from the last vesting deed.

WHAT HAS TO BE DOCUMENTED

AN INDEX AN UNDERWRITER CAN WORK FROM

Chain, fractions, and curative items each tied to a recorded instrument, so waivers and non-disturbance agreements go to the right owners. In *Lyle*, waivers from people with no interest in the tract clouded the true owners' title.

WHERE THE TIME GOES

OWNER LOCATION

Surface-waiver campaigns routinely take the better part of a year — longer where heirs or dormant interests are involved. The research has to be front-loaded and the heirs found early — before the waiver campaign starts, not during it.

A RESEARCH BENCH BEHIND YOUR TITLE MANAGERS

YOU KEEP THE CLIENT AND THE DELIVERABLE. WE DO THE RESEARCH BEHIND IT.

Pinson's title managers set scope and own the relationship. BIC REA delivers the severed-mineral chain, heirship work, and curative identification in your template — white-label under Pinson's cover or co-branded, your call — with a non-circumvention agreement covering every developer you introduce. Use us where your bench is thin — renewables-heavy states, heirship-heavy tracts, or overflow when a campaign spikes.

◇ SEVERED-MINERAL CHAIN, SOVEREIGNTY TO CURRENT

Patent forward. Every reservation, mineral deed, and fractional conveyance logged with grantor, grantee, instrument, and recording data — the format you saw in the Grant County report.

◇ HEIRSHIP AND OWNER LOCATION

Probate, estate, and public-record tracing to current owners of record, led by a Florida-licensed private investigator and paralegal applying investigative method to courthouse research.

◇ CURATIVE IDENTIFICATION AND DORMANT-MINERAL SCREENING

Each item sourced and categorized for your counsel's evaluation — including statutory cure paths such as Washington's Extinguishment of Unused Mineral Rights statute (ch. 78.22 RCW), which lets a surface owner terminate a mineral interest unused for twenty years after notice.

WHAT IS — AND IS NOT — IN THE REPORT

A DOCUMENTED ANALYSIS OF THE RECORD, BUILT FOR YOUR EXAMINER.

IT IS

RESEARCH YOUR COUNSEL CAN BUILD AN OPINION ON

Current record ownership as reflected in the instruments examined · surface and mineral estates separated · undivided-interest fractions computed from the recorded language · encumbrances, leases, and mining claims · curative items identified, sourced, and categorized · a source index so every finding traces to an instrument · BLM and state records cross-referenced.

IT IS NOT

A LEGAL OPINION, A CERTIFIED ABSTRACT, OR TITLE INSURANCE

Drilling, division-order, and acquisition opinions are issued by independent licensed counsel engaged directly by the client; we deliver our research in the form counsel needs. We do not issue certified abstracts in states that license abstracting. Off-record matters are outside the scope of records-based research.

◇ Every report carries a second-examiner review, independent of the preparer: findings re-traced to source, interest math re-run, curative items checked against their instrument. Standard on every report, rush or not.

TITLE REMARKS

This title report is intended solely for the purpose of identifying fee and mineral ownership, as well as underlying leasehold and mining claims, if any. The information contained herein was obtained from the online subscription services (which provide property tax information, title indexes and title documents sourced from the Grant County Assessor's/ Recorder's Office), referencing all recorded documents impacting the Subject Property recorded through January 12, 2026, along with further information contained in the records of the United States Bureau of Land Management (BLM).

- Lease(s).**
The recorded or unrecorded Lease(s) encumbering the Subject Property that were found are the:
 - Memorandum of Solar Lease Agreement** recorded on August 20, 2021, as AF # 1456077, by and between (withheld), a Washington General Partnership, as Landlord, and (withheld), a Delaware limited liability company, as Tenant; and
 - The Amendment to Solar Lease Agreement and Memorandum of Solar Lease Agreement** recorded on July 31, 2024, as AF # 1501946, by and between (withheld), a Washington General Partnership, as Landlord, and (withheld), a Delaware limited liability company, as Tenant.
- There are no current Mining Claims on the Subject Property.**
 - The Geologist with the Wenatchee Field Office of the Bureau of Land Management has provided information advising that there are no active mining claims on the Subject Property.
 - According to the information available in the Washington State Department of Natural Resources, there is no oil and gas production associated with the subject property.
- Easements and Rights of Way.**
 - Subject to: any vested and accrued water rights, for mining, agriculture, manufacturing or other purposes, and rights to ditches and reservoirs used in connection with such water rights. Subject

TITLE REMARKS Leases, claims, easements — each tied to an instrument

Client, project, parcel number, and lease counterparties withheld. Shared with the client's authorization.

BIC REA LLC is not a law firm and does not render legal advice, legal opinions, or title insurance. Reports are research deliverables for use by the client and its licensed counsel.

LEASEHOLD & VESTING Lease amendment and vesting deed, logged by Auditor's File

Excerpts from the BIC REA comprehensive title report delivered January 2026 for a solar project in Grant County, Washington — the report Pinson has reviewed in full. Client, project, parcel number, and lease counterparties withheld; recorded instruments omitted from the sample. Shared with the client's authorization. [CLIENT REFERENCE — PENDING CONSENT]

BUILT TO DROP INTO YOUR WORKFLOW

YOUR TEMPLATE, YOUR PLATFORM, YOUR COVER PAGE.

We deliver in whatever form your title managers adopt fastest. Nothing has to be re-keyed.

PINSON TEMPLATE

RUNSHEETS AND OWNERSHIP REPORTS IN YOUR FORMAT

Send us the template once; every deliverable comes back in it, white-label or co-branded.

STRUCTURED DATA

EXCEL / CSV, IMPORT-READY

Chain, interests, and curative items as structured rows for import into your project platform, Bridge™ included — one file per tract or one per project.

REVIEW PDF

HYPERLINKED SOURCE INDEX

Each finding linked to the recorded instrument image, so your examiner verifies in one click. Copies of the recorded instruments ship with every report.

◇ Thirty days of post-delivery Q&A on each report, included. Walk-through call with your title manager on delivery.

WHO DOES THE WORK

SENIOR EXAMINERS ON EVERY FILE; ASSOCIATES UNDER THEIR DIRECTION; A SECOND SET OF EYES BEFORE ANYTHING SHIPS.

◇ SENIOR EXAMINERS

Lead and sign off every report

Chain-of-title work completed in 30+ states. Research led by a Florida-licensed private investigator and paralegal who applies investigative method to courthouse and public-record heirship and current-owner-of-record research. Where licensed investigative services are required outside Florida, we engage properly licensed local investigators.

◇ ASSOCIATE LANDMEN

Deployable to any U.S. state

Runsheets build-out, courthouse pulls, and instrument retrieval by vetted associate landmen through our contract network — in most cases people we have worked with before — sized to the county count and timeline. Retrieval only — examination and sign-off never leave the senior examiner. Named personnel and résumés provided with each engagement.

◇ SECOND-EXAMINER REVIEW

Independent of the preparer

A second examiner who did not build the chain re-traces each finding to its recorded instrument, re-runs the undivided-interest math, and confirms every curative item is logged with its source. Documented in the engagement letter, not just promised here. On files Sandra prepares, [ROLE / CREDENTIAL] serves as second examiner.

NUMBERS YOU CAN PLAN A CAMPAIGN AROUND

STANDING CAPACITY, A SURGE TIER, AND PER-TRACT PRICING.

[N]

Tracts per week, standing capacity

[N]×

Surge within 10 business days by activating pre-vetted associates

7–14

Business days, single tract, sovereignty forward; multi-tract scoped by phase

1 DAY

Response from your named contact; same-day escalation on closing-critical items

PRICING

FIXED PER TRACT, QUOTED PER PROJECT

Per-tract or per-section fixed fee set at scope, with a stated day-rate fallback for anomalous chains agreed in advance — no hourly surprises. Scope, fee, and delivery dates in writing before work begins; scope changes priced before the work, not after. Courthouse travel and copy costs stated in the quote, never billed after.

COVERAGE

INSURANCE AND CONFIDENTIALITY

Professional liability (E&O) **[\$ LIMIT]** · General liability **[\$ LIMIT]** · certificates provided with the engagement. Mutual NDA; non-circumvention covering Pinson-introduced developers for the term plus **[12–24]** months; work product is yours and your client's; methodology and templates stay with BIC REA.

FIXED FEE, REAL TRACTS, YOUR TEMPLATE

TEN TO TWENTY TRACTS ON A LIVE PINSON RENEWABLE PROJECT.

Fixed fee, fifteen business days, delivered in your template with the second-examiner review and the hyperlinked source index. If your title managers can adopt it without rework, we scale from there.

1

YOU PICK THE TRACTS

10–20 tracts in [STATE / COUNTY] from an active project. Scope, format, and per-tract fee confirmed in writing within two business days.

2

WE DELIVER BY PHASE

Findings reach your title manager as each batch clears second-examiner review — not at the end. Fifteen business days to completion.

3

YOU DECIDE

Walk-through with your examiner, then a plain conversation about scaling: standing capacity, surge terms, rush pricing, and an MSA.

◇ Pilot fee: [\$ FIXED] for up to 20 tracts, inclusive of recorded-document retrieval. Credited against the first month of an MSA if we proceed.

HAVE A PROJECT IN MIND?

PRINCIPALS ON YOUR ACCOUNT — FROM SCOPE TO DELIVERY.

Christian and Sandra stay close to the engagement from day one, supported by the research team described on slide 8.
Reach either directly for a scope and a per-tract quote.

◇ CHRISTIAN HICKEY

Chief Executive Officer

Christian owns the commercial side of every engagement — scope, the delivery dates fixed in the engagement letter, pricing, and the MSA — and is the principal your title manager escalates to on closing-critical items.

✉ christian.hickey@bicrea.com

☎ +1 (805) 233-2942 · direct line

◇ SANDRA PETKOV

Chief Operating Officer · Licensed Private Investigator (FL) · Paralegal

Sandra leads the chain-of-title analysis and heirship research and directs the associate landmen on every engagement, with chain-of-title work completed in 30+ states. She is the examiner your title managers will be on the phone with at delivery.

✉ sandra.petkov@bicrea.com
