

SARASOTA-BASED · SERVING THE UNITED STATES

MINERAL TITLE RESEARCH, DONE THE WAY IT SHOULD BE **DEFENDED.**

Institutional-grade chain-of-title research for energy operators, landmen, attorneys, and rights-owners across more than thirty states — delivered with the rigor of a major firm and the responsiveness of a focused team.

◇ Direct work, no subcontractors

◇ Scoped to your project

◇ Four-eyes review on every report

OUR FOCUS · ONE STANDARD

MINERAL TITLE IS OUR **FLAGSHIP**.

We lead with mineral title research because doing it right is a full-time discipline. Each engagement leads to a specialist who actually does the work — not a queue, not a back office.

FLAGSHIP · FOR ENERGY PROFESSIONALS

MINERAL TITLE RESEARCH & REPORTS

Comprehensive title research, runsheets, and chain-of-title verification for oil & gas operators, landmen, attorneys, and royalty owners. Sovereignty-to-current or defined look-back — built to be defended under scrutiny.

TITLE WORK YOU CAN BUILD A DEAL ON.

Committed delivery date

Priced to your project

Secondary · Florida Only

DISTRESSED PROPERTY SOLUTIONS

For Florida property owners: direct cash purchase for properties with code violations, liens, probate complications, or structural issues that traditional buyers avoid. Taken as-is — a clean exit, handled directly.

SPECIALIST WORK, NOT **ASSEMBLY-LINE** WORK.

The result is work you can stake your project on — and a team that picks up the phone.

SARASOTA-BASED, NATIONALLY REACHING

A Florida firm with a Florida ethic — direct work, direct accountability — serving energy and real-estate clients across the United States. The mineral records we research span thirty-plus states.

DIRECT WORK, NO SUBCONTRACTORS

When you hire BIC REA, BIC REA does the work. No farming research to a back office in another time zone, no junior staffer running unfamiliar searches. The person on the phone is the person on the file.

PREDICTABLE TIMELINES, TAILORED PRICING

Each engagement carries a committed delivery date and a fee scoped to your project — customized to the work in front of us, not a one-size queue. We tell you what it costs, when you'll have it, and exactly what's in it before any work begins.

THE PROCESS

EIGHT STEPS FROM ENGAGEMENT TO **DEFENDED** REPORT.

Every conclusion in a BIC REA report ties back to a specific recorded instrument, examined in a documented way. Curative-heavy and multi-tract work add depth — the core method holds.

- 1 **Scope & written engagement**
- 2 **Sovereignty establishment**
- 3 **Chain-of-title build**
- 4 **Severance & reservation analysis**
- 5 **Encumbrance review**
- 6 **Curative identification**
- 7 **Four-eyes internal review**
- 8 **Delivery & walk-through**

Every report receives a four-eyes review. A second principal independently verifies that each conclusion ties to source, the undivided-interest math reconciles, and curative items are properly characterized. No exceptions for time pressure.

THE DELIVERABLE

A REPORT BUILT TO BE READ, TRACED, AND TRUSTED.

The final deliverable is a structured PDF in which every conclusion can be traced back to the underlying recorded instrument — an auditable document, not an opinion on letterhead.

What Every Engagement Contains

♦ **Executive summary**

Present-day ownership and the findings that matter, up front.

♦ **Runsheet & chain table**

Every conveyance, instrument type, and recordation reference.

♦ **Undivided-interest summary**

Fractions computed from the recorded language, by current owner.

♦ **Encumbrance & curative list**

Identified, prioritized, characterized — critical to informational.

♦ **Source-document index**

Each conclusion traceable to a specific recorded instrument.

♦ **30-minute walk-through call**

Every report is delivered live — findings discussed, questions answered.

TRACK RECORD

THREE DECADES. TWO SPECIALTIES. REAL WORK.

Numbers represent the cumulative experience the BIC REA principals bring across their careers. Detailed substantiation is available on request for engaged clients.

CUSTOM

Scope & fee, quoted per project

“BIC REA’s title work was clean, defensible, and turned faster than any of the regional firms we’d used previously. They told us exactly what they found, what they couldn’t find, and why — which is what you actually want from a title researcher.”

Energy company senior landman · multi-state acquisition project, 2024 — name & company withheld pending consent; references available to qualified prospects on request.

ENGAGED-CLIENT PORTAL

YOUR PROJECT, **VISIBLE** AT EVERY STAGE.

Engaged clients receive secure portal access to track active research, monitor progress by stage, and retrieve every delivered document in one place — with MFA-protected sign-in.

- ◆ Active projects with live stage & progress tracking
- ◆ Secure document library — reports, runsheets, source files
- ◆ Encrypted, MFA-protected access

HAVE A PROJECT IN MIND?

HAND-PICKED FOR **YOUR PROJECT.**

We don't hand your file to whoever's free. Christian and Sandra are chosen as your team leads and stay close to the engagement from day one — among the most rigorous specialists in the business, supported by experienced landmen on the work itself. Reach either directly for a straight answer and a specific quote.

◇ CHRISTIAN HICKEY

CEO & Co-Founder

Christian leads the firm and stays close to every engagement — setting the scope, the committed delivery date, and pricing built to your project, so you always know where the work stands and what comes next.

✉ christian.hickey@bicrea.com

☎ +1 (310) 963-1569 · direct line

◇ SANDRA PETKOV

COO

Your assurance the report holds. Sandra leads the chain-of-title analysis and the four-eyes review — verifying every conclusion ties to a recorded instrument and the interest math reconciles before anything ships.
